

BUILT FOR NEW ZEALAND HOSPITALITY

RR NOVA

The all-in-one platform that turns your restaurant's website, menu, orders, and bookings into one growth engine.

For restaurant owners

Live demo • Harbour Kitchen • Wynyard Quarter, Auckland

THE PROBLEM

What restaurant owners struggle with

Too many tools

Website builder, PDF menus, booking widgets, delivery apps, and spreadsheets – nothing talks to each other.

Menu chaos

Printed menus and third-party apps go stale the moment a dish is 86'd.

Missed revenue

Guests bounce to aggregators. You pay commission for customers you already earned.

Blind service

No single view of covers, tickets, waitlist, or guest history during a busy service.

Manual grind

Staff re-type bookings, chase confirmations, and answer the same phone calls every night.

No clear ROI

Hard to see what drives spend, repeat visits, or empty midweek tables.

RR NOVA

PLATFORM BENEFITS

One operating system for your venue

Premium guest website

A branded site that matches your room – not a generic template.

Live digital & QR menu

Publish once. Website, QR, and ordering stay in sync.

Direct online ordering

Pickup, delivery, and dine-in on your brand – keep the margin.

Reservations that fit

Online bookings with capacity rules, confirmations, and calendar control.

Owner dashboard

Menus, orders, bookings, guests, analytics, and AI insights in one place.

NZ-first by design

Timezone, GST-aware pricing mindset, and Aotearoa hospitality pace.

How RR NOVA helps you sell more

01**Convert more visitors**

Order Now and Reserve sit on a premium site guests trust – fewer abandoned visits.

02**Keep margin in-house**

Direct orders and bookings reduce aggregator fees on guests you already attract.

03**Fill quiet sessions**

Live menu, offers, and analytics help shape demand for lunch and midweek.

04**Turn covers faster**

QR menus and clear ordering cut friction from table to kitchen.

05**Win repeat visits**

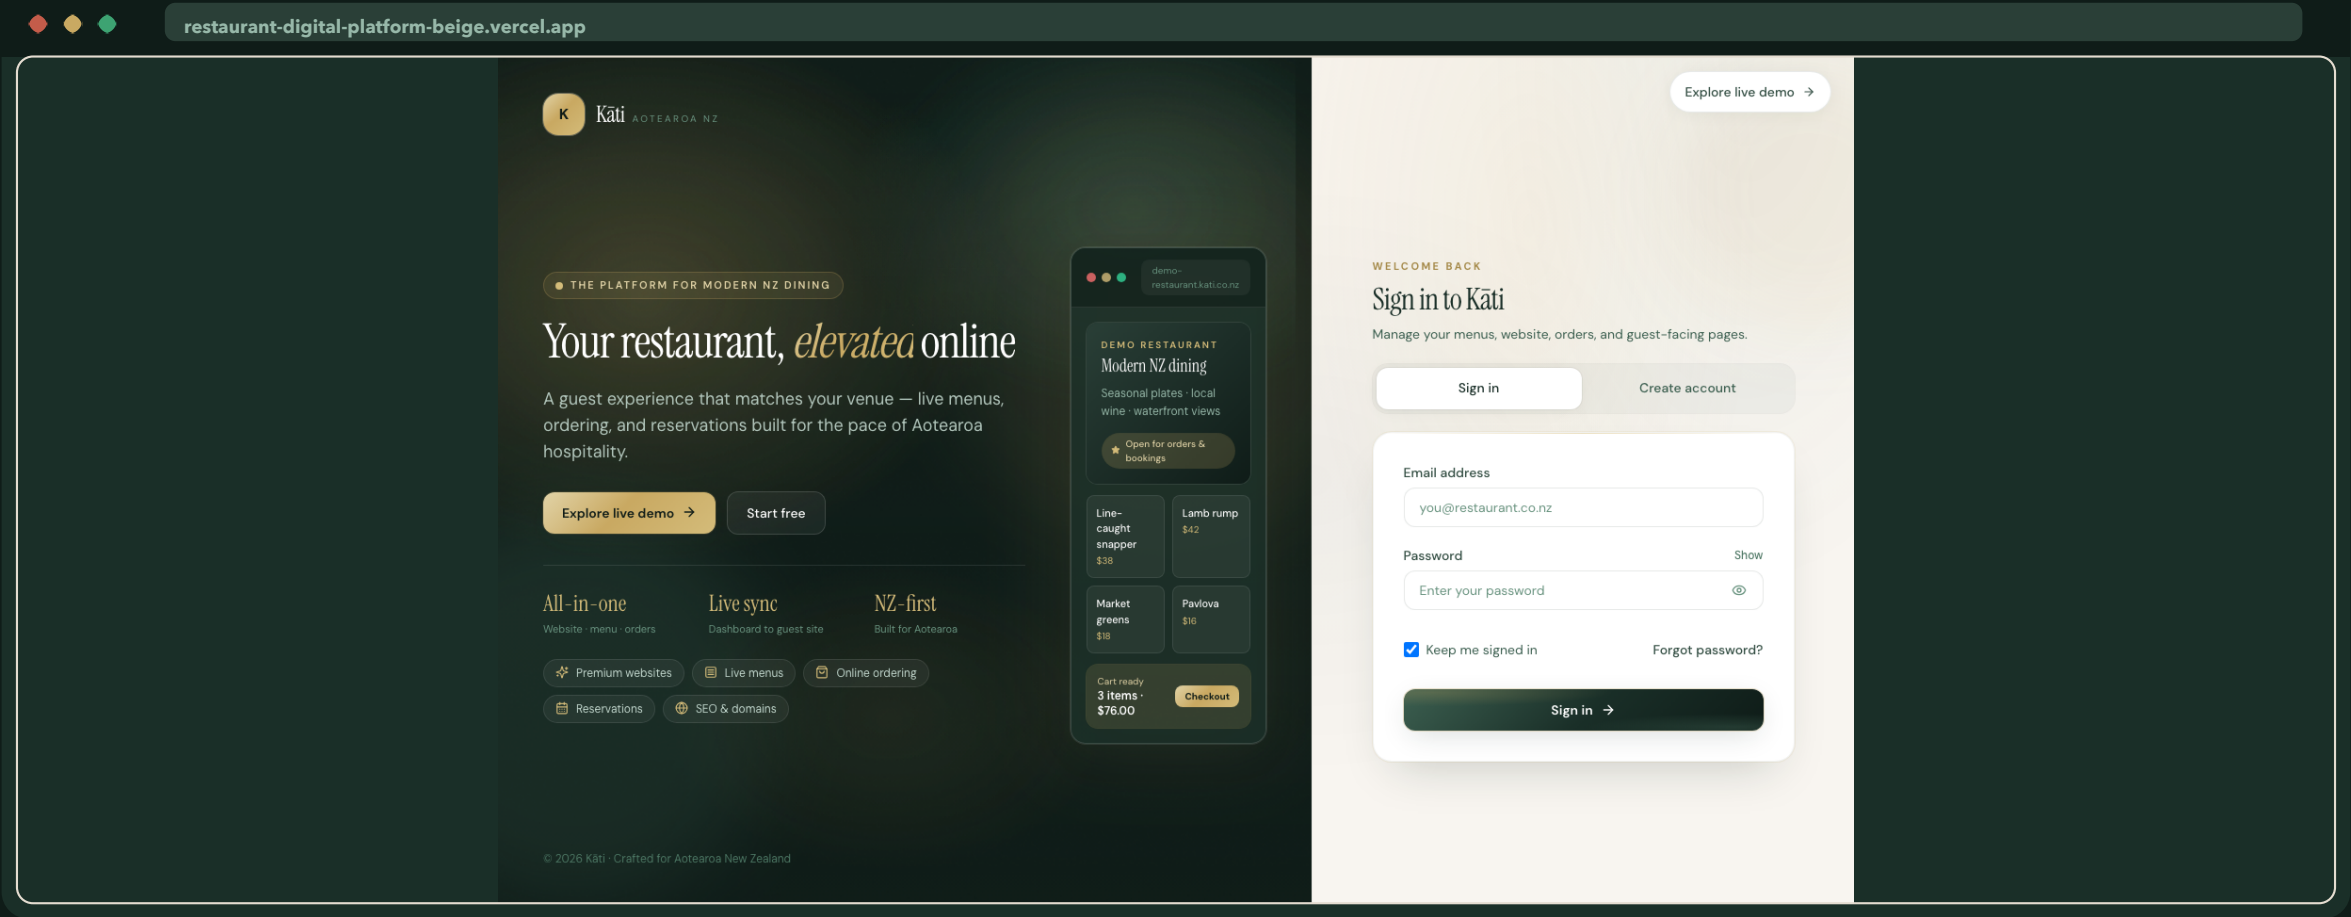

Guest profiles, history, and timely follow-ups turn one-offs into regulars.

06**Decide with facts**

Revenue, AOV, bestsellers, and funnel metrics – never invented numbers.

Your restaurant, elevated online

The RR NOVA landing experience – premium brand, clear CTAs, and a path into the live demo.

Harbour Kitchen — branded guest site

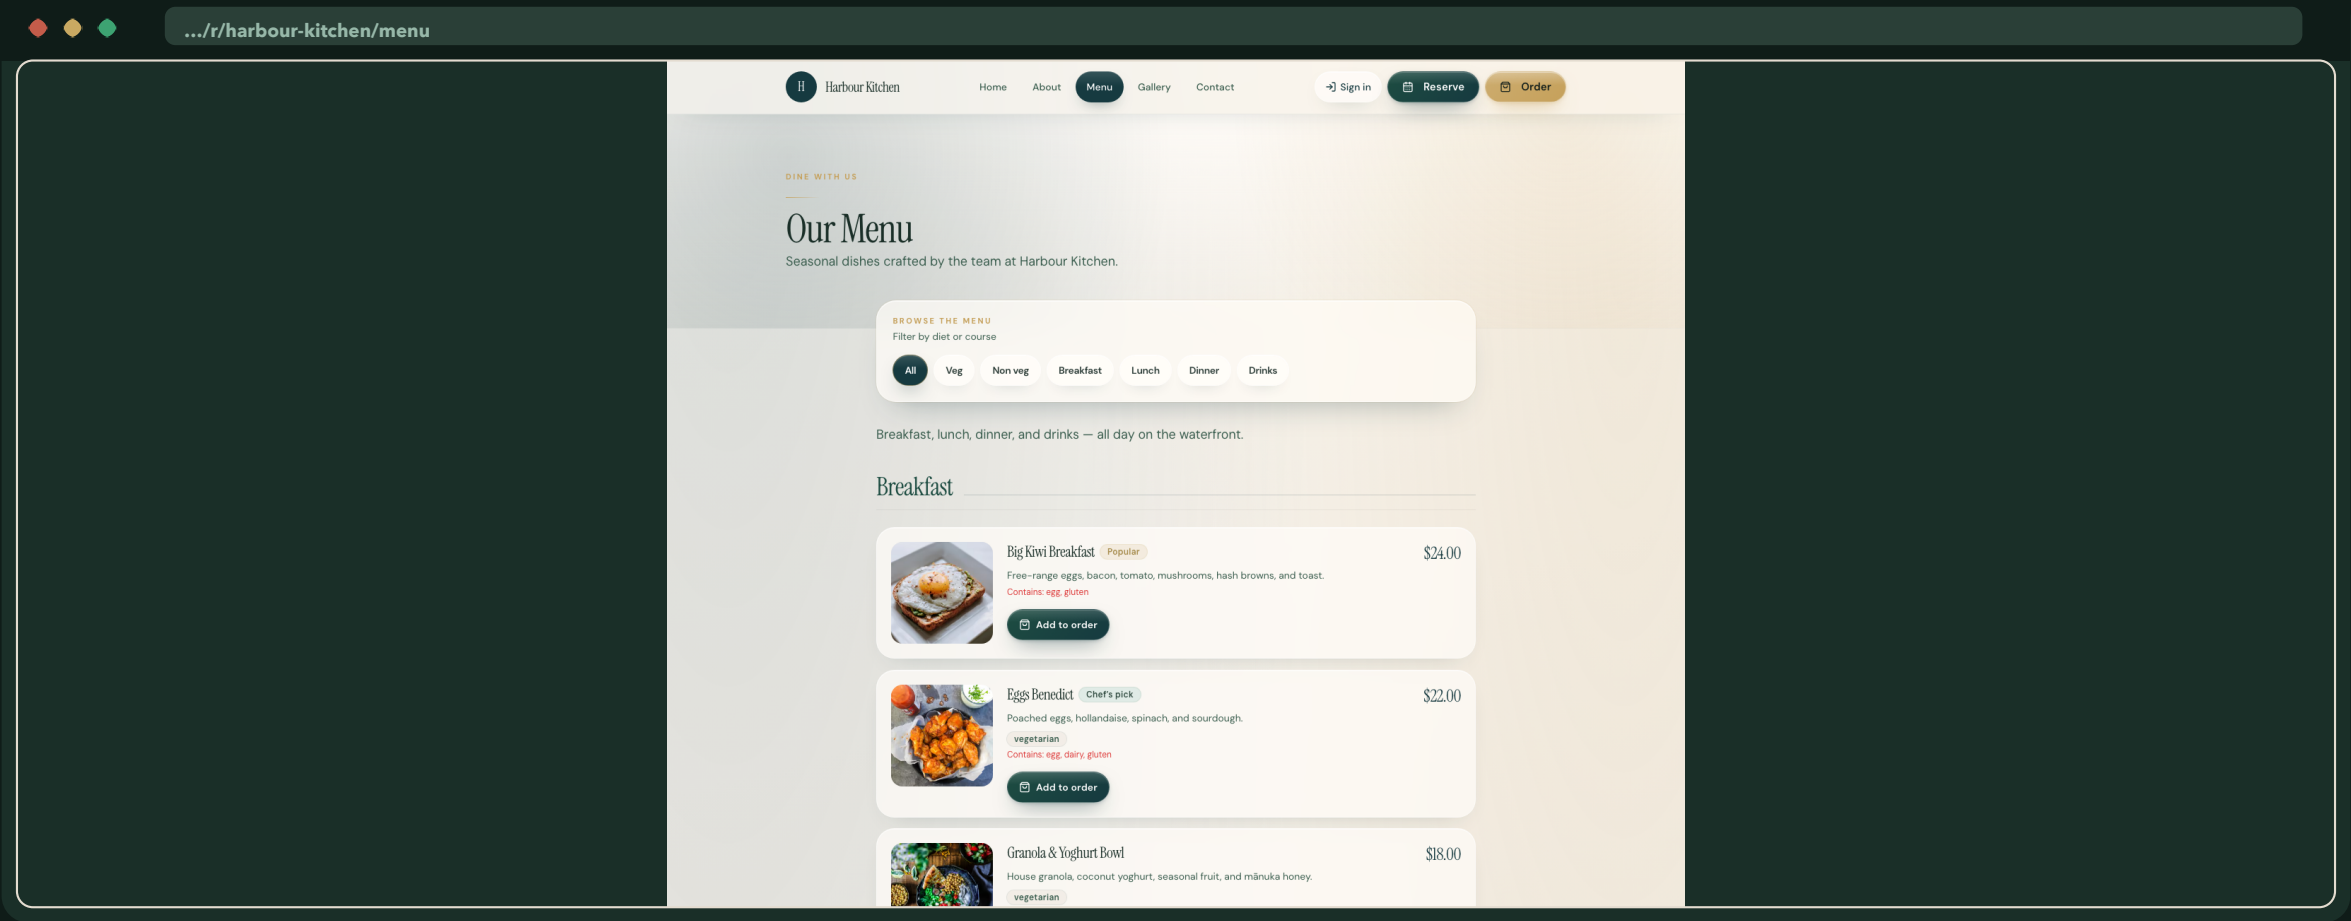

A full-bleed hero with Order, Reserve, and Menu CTAs – designed to convert discovery into covers and sales.

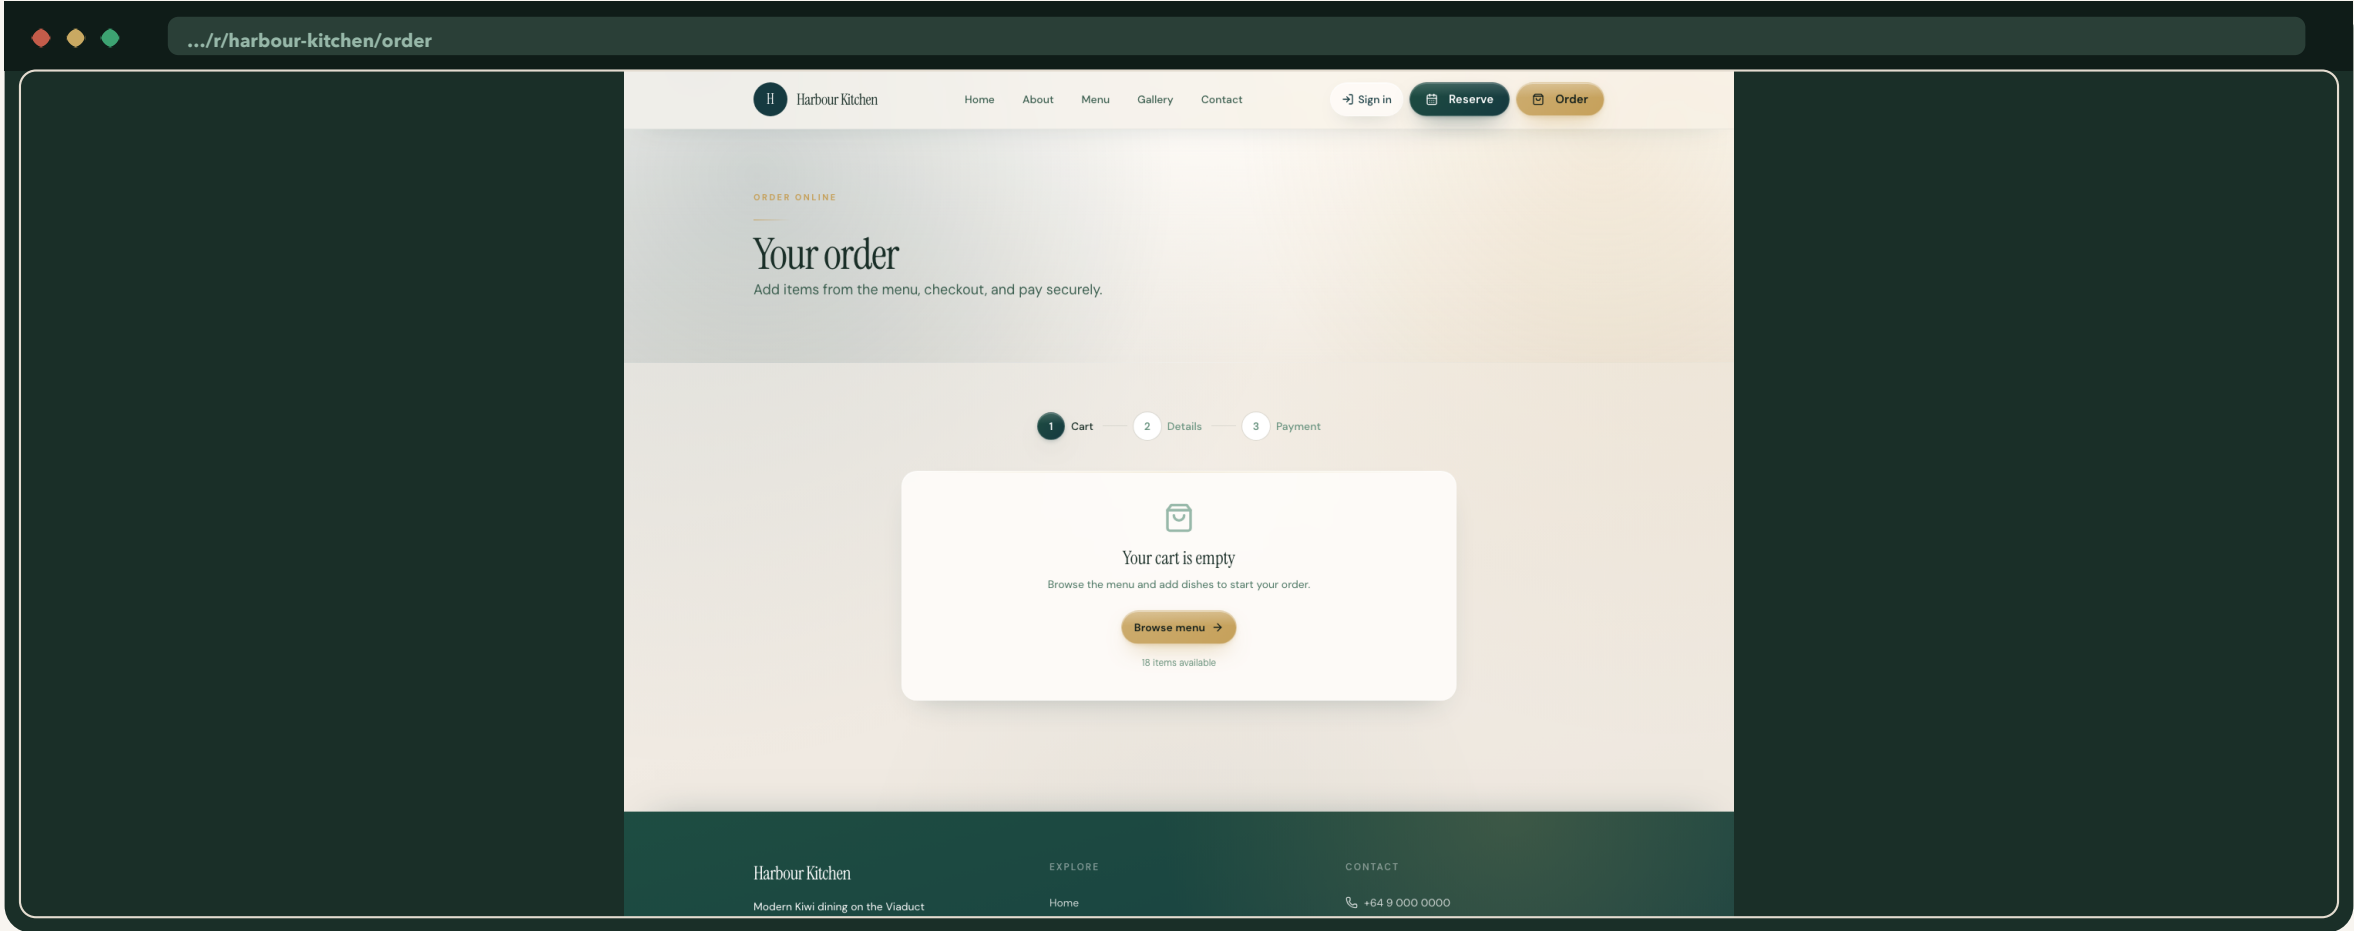

Digital menu guests can order from

Dietary filters, allergen notes, popular tags, and Add to order – always in sync with your dashboard.

Checkout on your brand

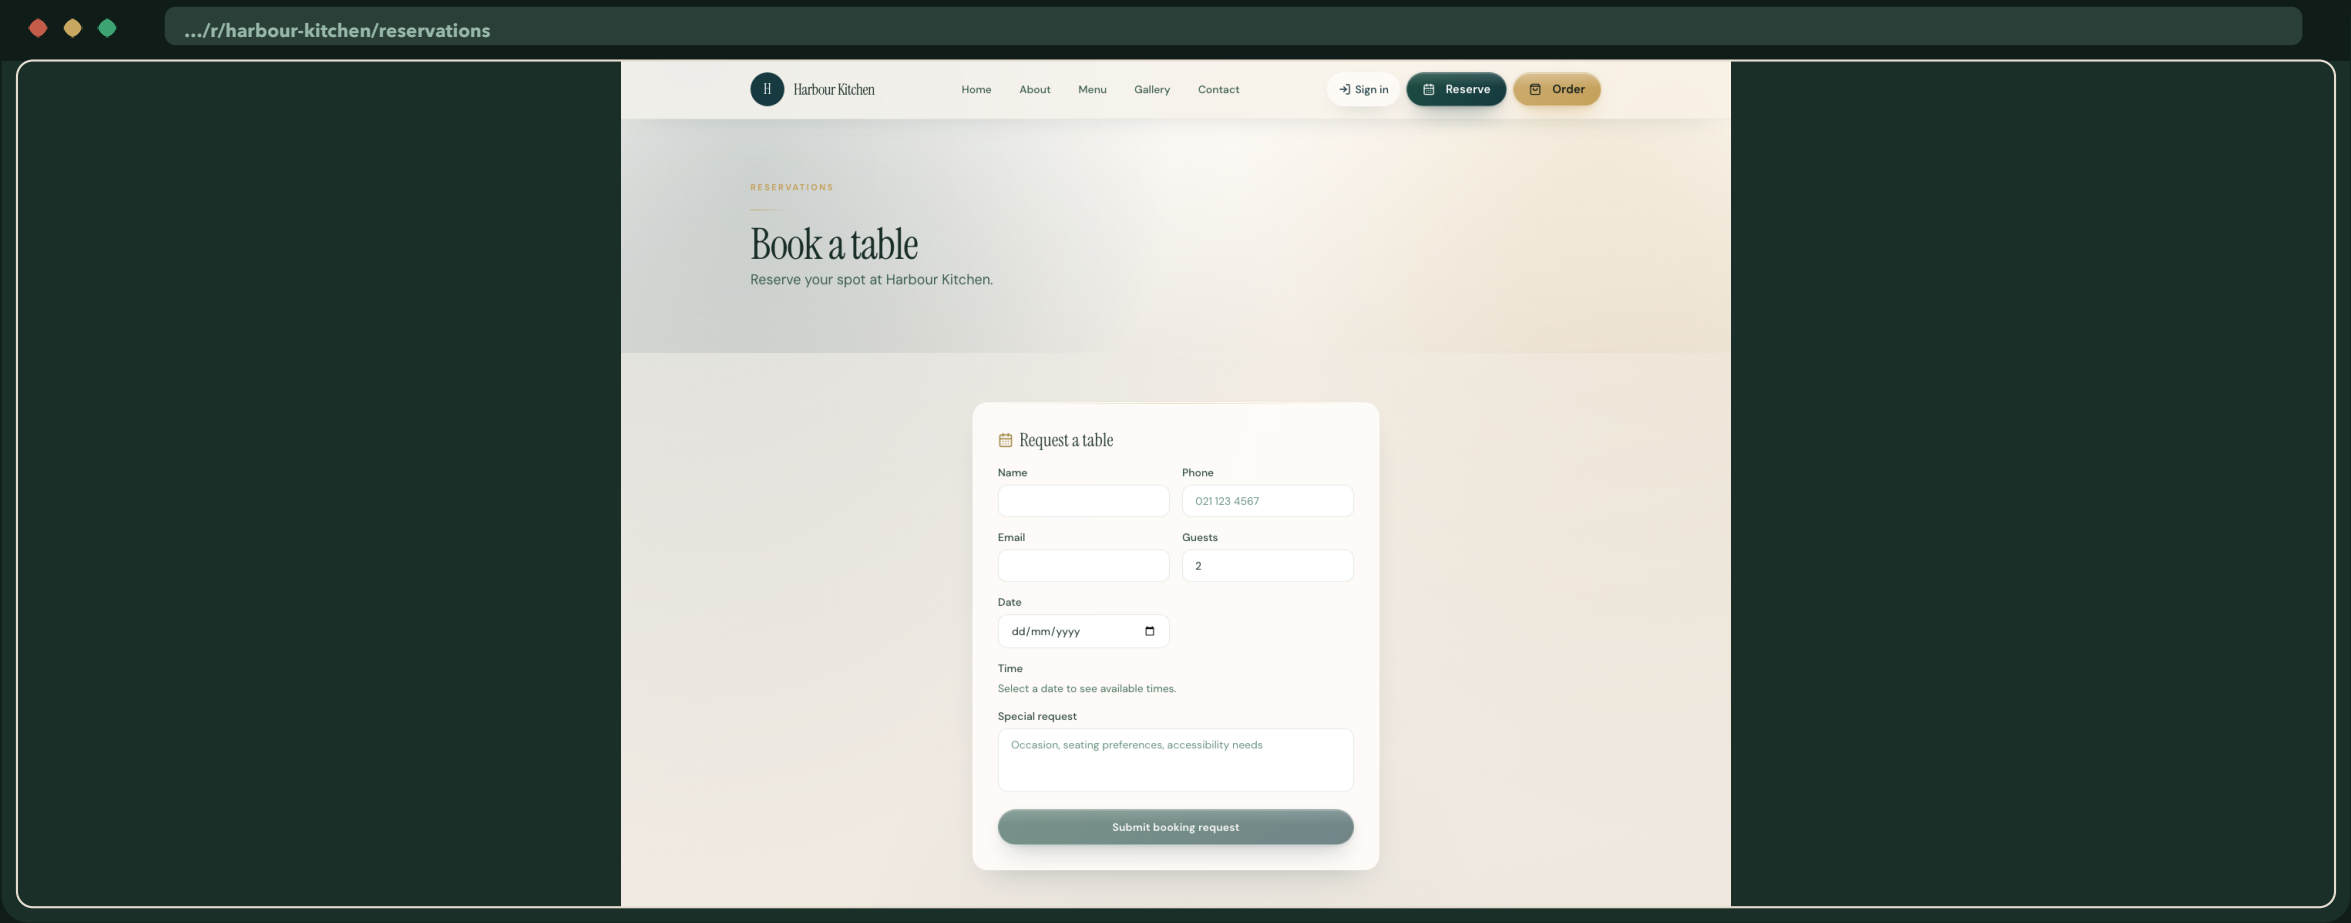

Cart details payment. Guests stay with you instead of leaking to third-party marketplaces.

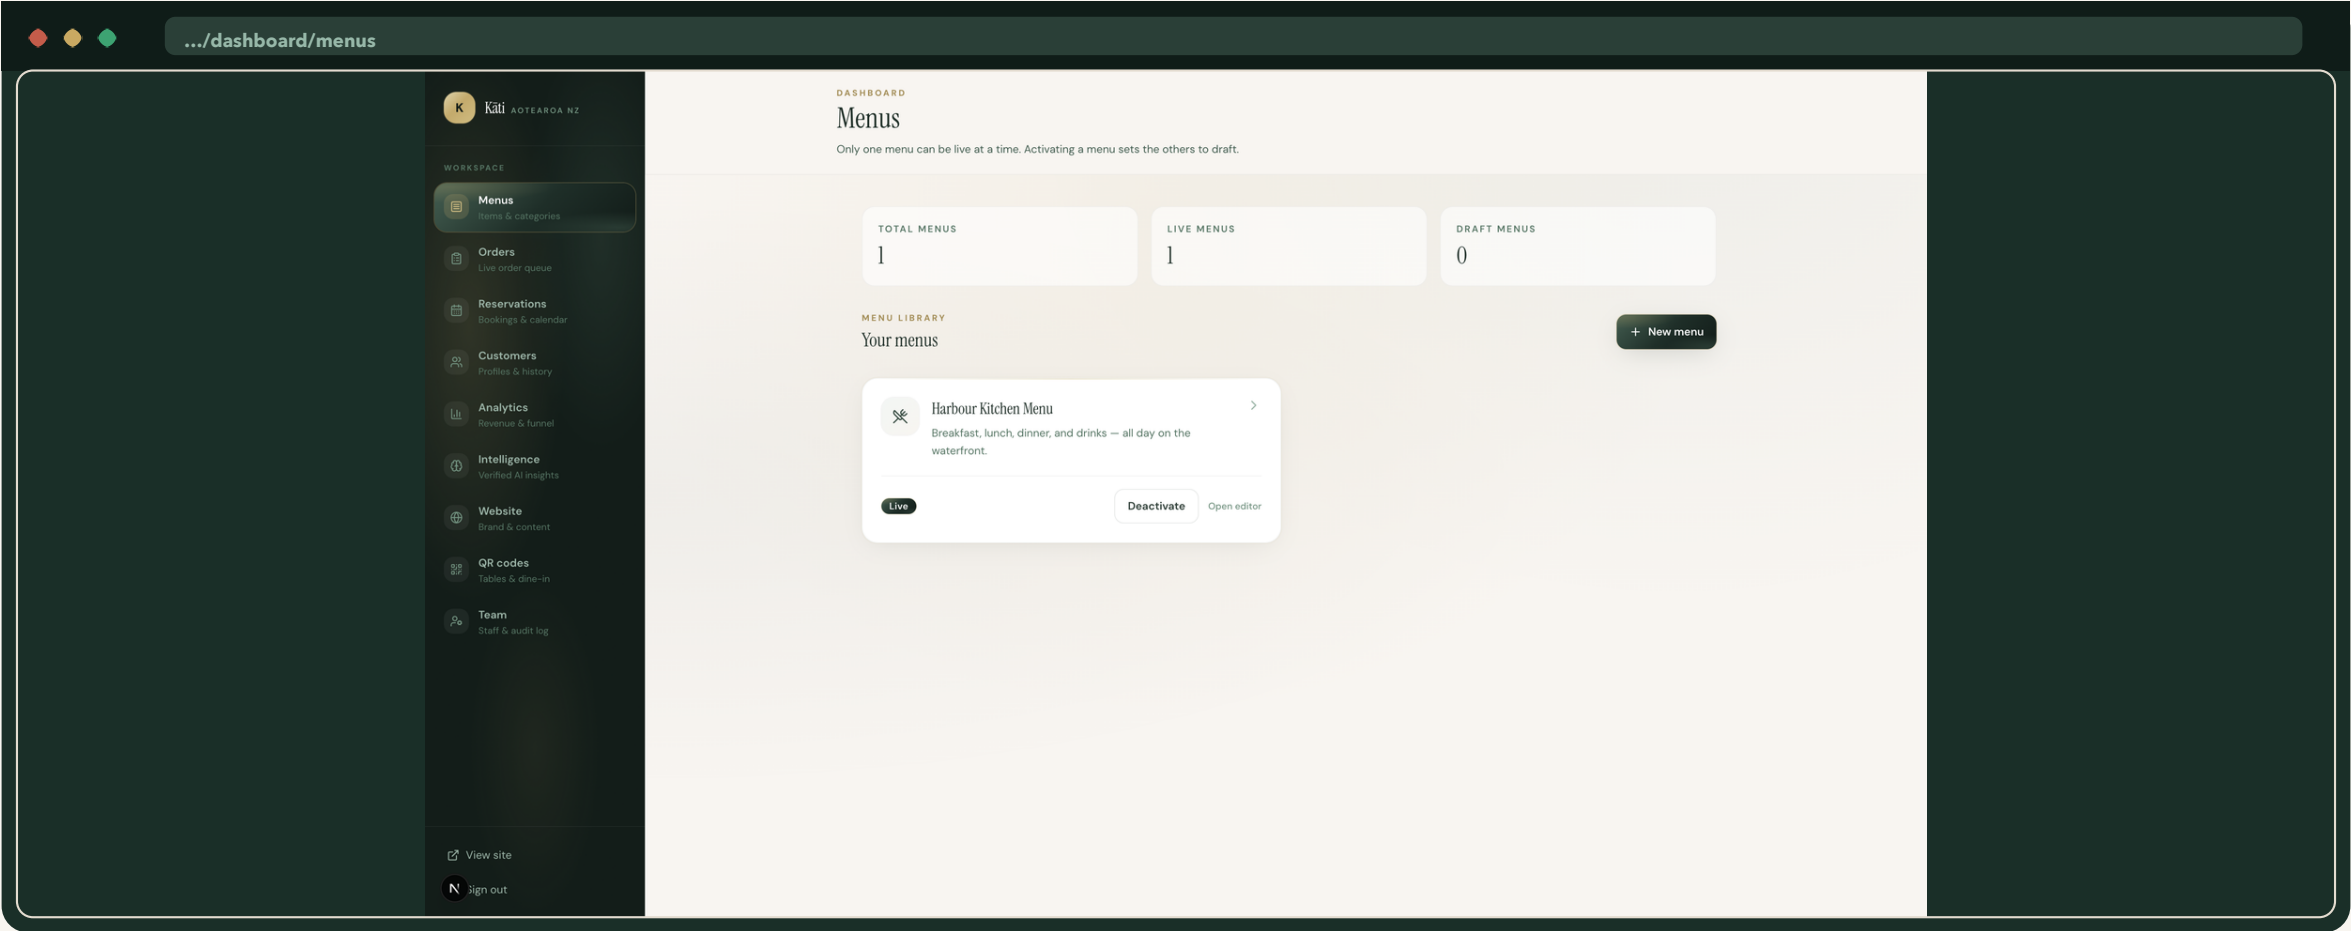

Book a table without phone tag

Online reservations with party size, date, and time – capacity rules you control from the dashboard.

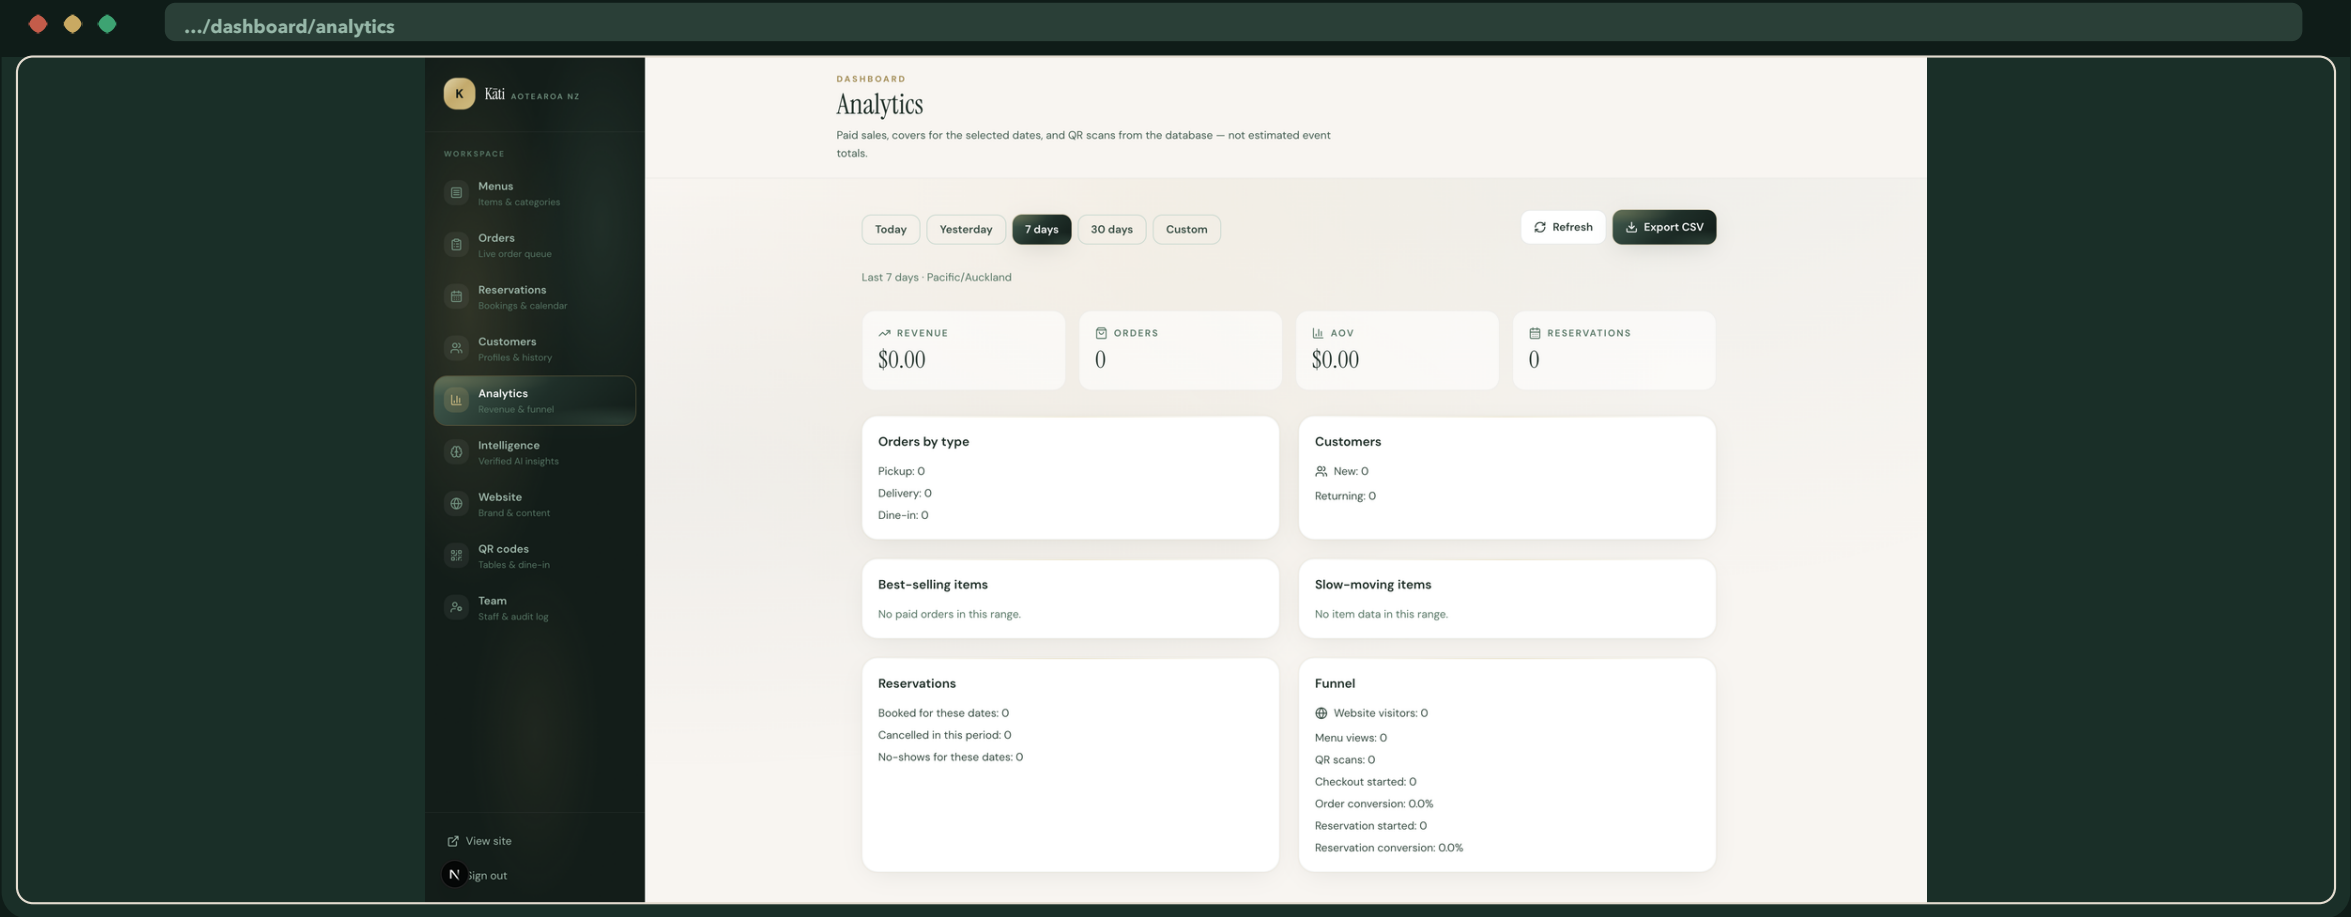

One workspace to run service

Menus, orders, reservations, customers, analytics, website, QR, and team – without hopping between apps.

See what actually drives sales

Revenue, AOV, bestsellers, reservations, and conversion funnel – facts from your venue data.

TRANSFORMATION

Before vs after RR NOVA

Before

5-10 logins every service

Stale menus & broken booking links

Aggregator fees eating margin

Guest data trapped in inboxes

Managers flying blind on covers

Marketing is an afterthought

After

One dashboard for the whole venue

Live menu, QR, and site in sync

Direct orders with secure checkout

Unified guest profiles & history

Live boards for kitchen & floor

Analytics guiding real decisions

LET'S GET YOUR VENUE LIVE
